A step by step Remote access guide to your:

# PRIME

DVR System

Welcom to San Diego CCTV Pros!

Here is a step by step guide on how to access your PRIME Series DVR remotely

Lets Get started!

**NOTE: Here is the links you will need, refer to them as needed**

First off, on you computer open up Internet Explorer

No go to one of your link

This will prompt a warning asking you if you want to install something on to your computer

Click on install and let it install then you will get to your log in page which looks like this

Log in

user:

password:

then you have to click on the log in arrow

Ccameras should now show up on your screen.
